The Mahogany Collection offers an extensive selection and a great value in an entry door. Featuring true Ovolo cove and bead construction with engineered stiles and rails, 1-3/4" thick Mahogany Collection doors are a source of pride and accomplishment for their owners. Available in 6'8" and 8'0" heights and in 2'6", 2'8", 3'0" and 3'6," widths depending on model, the Mahogany Collection has the size you need in stock. Sidelites are available in 12" and 14" widths with matching transoms in several styles and configurations. Select Mahogany Collection profiles are also available in 2-1/4" thickness.

# Door Unit Configurations

Prehung or prepackaged jamb systems are available in the 12 standard configurations shown below. Door systems can be prehung and shipped as a complete unit or prehung and shipped knocked-down for you to assemble. Stock jamb widths are from 4-9/16" to 6-9/16". Component jamb materials are available individually. In addition to the 12 standard configurations shown, custom sizes and configurations are available and quoted upon request. Door systems include an adjustable threshold, door sweep and hinges. Double door systems also include a t-astagal and flush bolts. All hardware items are available in satin-nickel or oil-rubbed bronze finishes.

# Glass and Glass Privacy

**Hoelscher** offers a wide variety of glass designs and it can be difficult to tell the privacy level provided by different design options. To help you decide which option is right for your entry, consult the privacy rating information that accompanies each door.

## Leaded Glass and Privacy

The privacy ratings in this publication are based on the surface texture of the glass in each design. Clear untextured glass has a privacy rating of 1 (transparent) and allows a unobstructed view through the glass into or out of your home. At the other end of the scale, the Granite texture has a privacy rating of 8 (translucent) and allows only a view of shadows and color without any distinguishable shapes. Solid doors, without any glass panels, have a privacy level of 10. Glass panels with multiple textures have an averaged glass privacy rating. A privacy rating for each traditional leaded glass type are shown below.

## Traditional Leaded Glass Textures

4

Clear Bevel  
Privacy rating: 1

Baroque  
Privacy rating: 2

Gluechip Bevel  
Privacy rating: 3

Privacy rating: 8

## CAMING OPTIONS

Caming is the H shaped metal channels used in traditional hand-crafted leaded glass panel assembly.

Patina

Zinc

Privacy ratings are subjective and open to interpretation. The higher the privacy rating, the more private and less transparent that particular textured glass option will be. 12" x 12" glass photographs.

# Mahogany Stain Selections

JACOBEOAN

SPECIAL WALNUT

ENGLISH CHESTNUT

RED OAK

VELVET SMOKE

EBONY

- 1) All stain colors shown are available in both satin and gloss finishes. Additional colors available upon request.
- 2) Color will vary due to natural variations in the wood from which the doors are constructed.

# Mahogany Collection

The Mahogany Collection doors feature traditional Ovolo cove and bead construction.

Engineered wood stiles, rails and raised panels along with multiple hardwood dowels at stile/rail connections all should assure the home owner of a safe, solid and stable door.

Raised wood panels are full floating and split resistant.

A mahogany speakeasy offers a rustic option for many of our mahogany solid wood doors. Speakeasies are available with a wood panel or insulated glass in the operational speakeasy door and with three optional iron mask designs.

Speakeasy, wood door  
Balfour Iron Mask Pg. 30

The Mahogany Collection features a wide selection of leaded glass and iron grille options.

Beveled glass, textured art glass and two coming assembly options are offered in all leaded insulated glass panels.

The Mahogany Iron Grille Collection offers nine iron grille designs and five textured insulated glass options.

All insulated glass is fabricated with tempered safety glass.

## PRODUCT CERTIFICATIONS

### WINDSTORM CERTIFICATION

Our products are tested for windstorm certification according to the standards set by the Texas Department of Insurance and the Florida Building Code. For a listing of certified products, and to view certification documents, please refer to web pages <http://www.tdi.texas.gov/wind/prod/indexdr.html> or [http://www.floridabuilding.org/pr/pr\\_app\\_srch.aspx](http://www.floridabuilding.org/pr/pr_app_srch.aspx)

62

To find our products on the Texas Department of Insurance website look for products with Hoelscher Weatherstrip Manufacturing Co., Inc. in the Manufacturer Distributor field under Hinged Doors - Wood - Non-Impact Resistant. Multiple product configurations may be found within a single report.

To find our products on the Florida Building Code website simply search our FL#, FL16575, in the FL field at the [Floridabuilding.org](http://www.floridabuilding.org) site listed above.

Product certifications are updated periodically, including the addition of new products and new product configurations, and any of these changes/updates will be reflected on these websites.

### GLASS CERTIFICATION

The glass supplied by Hoelscher Weatherstrip is certified to the ANZI Z 97.1 2015 and CPSC 1201 II standards. 1/8" tempered glass have an SGCC 5127 1/8 UA certification and 1/4" tempered glass hve an SGCC 3584 1/4 UA certification.

### NAMI CERTIFICATION

Our products all comply with the standards of, and are registered with, NAMI.

### Wood Entry Door Collection Warranty

Hoelscher Weatherstrip Mfg. Co., Inc. offers a limited warranty for one (1) year on all wood doors from the original date of installation of the door. This warranty assures that each such door, for this period, is of good material and workmanship, and free from defects rendering the door unserviceable or unfit for the ordinary, recommended use. This warranty shall be void if the door has not been stored, installed, and maintained in a good workable manner. If the door is installed unfinished, the warranty is void unless the door is sealed within a 72 (seventy two hour) period. During this period, if the door is exposed to rain or any water infiltration, the warranty shall be void. Additionally, all 6 sides of the door (front, back, edges, top, and bottom) must be properly finished and maintained or the warranty is void.

#### Conditions not Considered Defects Covered by the Hoelscher Warranty

The following conditions are not considered defects which are covered under the Hoelscher warranty: warp (as defined and within the limits prescribed below); bow or misalignment of the frame or jamb in which the door is hung; variation or unsatisfactory results in the surface checking of the wood; damage resulting from the causes beyond the control of Hoelscher (within the limits pre-scribed below); defects from failure to perform normal home owner maintenance or from attempts by non-Hoelscher workmen to repair the door; surface checks on the door that are less than 1/32" in width or less than 2" in length; panel movement or shrinkage of 3/16" or less (temperature, humidity, and direct sunlight may cause the wood panels on your door to shrink slightly, leaving an unstained line in the panel. This movement is normal and the door's construction is designed to allow this movement.); damage caused by the installation of a storm door; leakage in the speakeasy opening in doors with such a feature (with or without decorative iron grille); reducing the height of the door by removing more than one (1") inch from the bottom rail and/or one-half (1/2") inch from the top rail of the door; reducing the width of the door by removing more than one-half (1/2") inch from the stiles at either side. Warp, as mentioned above, is defined as any distortion in the door itself, and does not refer to the frame or jamb in which it is hung. However, the term, "warp" shall not include the related terms of "bow", "cup", or "twist." To be considered warped for the purposes of the warranty; the distortion would have to exceed 1/4" on a 6'8" tall door and 1/2" on an 8'0" tall door. Doors wider than 36 inches or taller than 8 feet are not warranted against warp. If the claimed nonconformity is warp, Hoelscher may defer repairing or replacing the product for up to twelve (12) months from the date of the claim of the date when the products was installed, as it is not uncommon for temporary warp conditions to occur as the door adjusts to local humidity and temperature. The aforementioned damages caused by forces beyond Hoelscher's control include, but are not limited to, damage caused by misuse, abuse, accident, mishandling, fire, flood, earthquake, storm, tornado, or other acts of nature. In addition to the above, the Hoelscher warranty does not cover any damages including fading of finish, discoloration, rust or flaking resulting from exposure due to installation without sufficient roof overhang protection, which causes the door to be exposed to an unusual amount of sunlight and /or precipitation. Minimum roof overhang is one in which the roof overhang projects out a distance from the structure no less than one-half (1/2) of the elevation between the bottom of the door and the base of the overhangs highest point above the entryway.

#### Prefinished Doors

Hoelscher Weatherstrip Mfg. Co. offers a twelve (12) month warranty on all of our prefinished doors. The warranty period begins on the original date of purchase.

#### Glass Panels

Hoelscher Weatherstrip Mfg. Co. does not warrant any product against glass breakage or glass damage for any reason.

#### "IG" Insulated Glass Panels

Your insulated glass panel is warranted for a period of two (2) years from the original date of installation. It is warranted against any material obstruction of vision through the unit due to accumulation of dust, moisture, or film on the internal surfaces caused by the failure of the unit's edge seal due to defects in material or workmanship under normal conditions. This warranty shall be void if; the unit is installed in high moisture environments (such as greenhouses or swimming pool enclosures) or film, shades, blinds, or any foreign materials, are used on or near the surface of the unit.

#### Claim Procedures and Limit on Remedies

All warranty claims must be presented within the warranty period for the specific product as outlined above. Hoelscher will not honor warranty claims made prior to payment in full for the warranted product. Upon validation by Hoelscher of any warranty claim, Hoelscher will at its option: 1) Repair the product and return it FOB our Houston, Texas facility, freight collect: 2) furnish a comparable replacement product (or if the product is no longer produced, a replacement which, in the sole opinion of Hoelscher, constitutes a comparable replacement) FOB our Houston, Texas facility, freight collect: 3) Refund the purchase price paid by the original purchaser of the product by Hoelscher. Hoelscher Weatherstrip Mfg. Co., Inc. reserves the right to inspect, in the field or on our premises, any product which is alleged to be defective, and must be given a thirty (30) day opportunity to have any door which is subject of a warranty claim field inspected by a company or field representative of Hoelscher.
